 **accutone®**

We love music. Sometimes it feels like music is the only thing that really unites us. It is the medium which truly transcends culture, race, gender and age. Music is the most effective means to bring people closer. Although this may be good enough of a reason why we build headsets, it is definitely not the reason why we are able to build excellent headsets.

Accutone has been making some of the world's best headsets for decades, and our goal has always been about bringing people closer. In the past, our focus was on providing the best communication tools for businesses in the form of telecommunication headsets for call centers and corporations. We know that in order to really bring people closer, we have to build headsets with great sound quality, reliability and durability. We are able to do so, because we are passionate about what we do, and we have the knowledge and experience of how to make the best headset.

But we haven't forgotten why we started everything in the first place. We love music, and we want everyone to be able to enjoy music in the most accurate form as our beloved musicians intended. If we are able to do that, we will have achieved our goal of bringing the world closer.

We love music.

Important Safety Instructions

Warnings

- Contains small parts which may be a choking hazard. Not suitable for children under age three.
- Set a low volume setting before using the headsets.
- Long-term exposure to loud music or sounds may cause hearing damage. It is best to avoid high volume levels when using these headsets, especially for extended periods.
- Do not use these headsets when operating a motor vehicle, a bicycle, machinery or where your inability to hear outside sounds may present a danger to you or others.

Cautions

- Using these headsets limit your ability to hear sound around you, regardless of listening volume. Please be cautious when using these headsets.
- Do not drop, sit on, or allow the headsets to be immersed in water.
- The earbuds that accompany these headsets may deteriorate over time. Please make sure to use suitable earbuds on the headsets at all times.

Made for iPod information

"Made for iPod," and "Made for iPhone," mean that an electronic accessory has been designed to connect specifically to iPod, or iPhone, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod or iPhone, may affect wireless performance.

This symbol indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronics equipment. This product was produced after Jan 1 2006.
